Pass Your **FAMED** Exam on the
First Try!

The Complete **FAMED** Preparation Roadmap

Your **FREE** 8-week realistic Study Guide

This guide provides a realistic, achievable 8-week (2-month) preparation plan for the FAMED exam based on the actual exam structure and all official cases.

What's inside?

- 8-week realistic study timeline (multiple activities per day)
- ALL 76 official FAMED cases covered
- Top 10 common mistakes to avoid
- Complete frameworks (SAMPLER, SBAR, OPQRST)
- Exam day checklist and tips
- Practice resources from famedtestprep.com

Understanding the FAMED Exam

What is FAMED?

FAMED (Fachsprachenprüfung Medizin) is a medical language examination for international doctors seeking to work in Germany. It tests your ability to communicate in German at a C1 level in medical contexts.

Cost

€490

Results

~4 weeks after exam

Location

Mainz, Kassel, Nurnberg
(Germany)

Recognition

Bayern, Rheinland-Pfalz, Sachsen (EU only, limited),
Baden-Württemberg (case-by-case)

The FAMED exam consists of **3 stations** (NOT 4!)

Station	Duration	What's tested	Number of cases
Anamnese & Aufklärung	10 min	Taking patient history (TWO CASES!)	12 cases
_____	10 min	Explaining procedures to patients	20 cases
Arzt-Arzt	10 min × 2	Presenting cases to supervisors	29 cases
_____	_____	_____	_____
Brief (Written)	20 min	Writing medical documentation (Arztbrief)	12 cases

Total Exam Time

~70 minutes

Reading Time:

2.5 minutes per station

(except Brief: 20 min total)

IMPORTANT

- Anamnese has TWO 10-minute cases (**not one!**)
- Brief is 20 minutes (**not 10!**)
- Arzt-Arzt is 1/3 of the entire test (**most important!**)

Complete Case List (76 Total Cases)

10 minutes

Anamnese Cases (12 Total)

You will get **2 of these** in your exam:

1. Migräne
2. Vertigo/Tinnitus
3. Mandelentzündung (Tonsillitis)
4. Halsschmerzen/Fatigue/Covid
5. Bronchialkarzinom (Lung cancer)
6. Thoraxschmerzen (Chest pain)
7. Bauchschmerzen (Abdominal pain)
8. Knieverletzung (Knee injury)
9. Knieluxation (Knee dislocation)
10. Sprunggelenkverletzung (Ankle injury)
11. Kolonkarzinom (Colon cancer)
12. Ösophaguskarzinom (Esophageal cancer)

10 minutes

Aufklärung Cases (20 Total)

You will get **1 of these** in your exam:

1. Masteoidektomie
2. Appendektomie
3. Sigmoidektomie
4. Cholezystektomie
5. Thyroidektomie
6. Koloskopie
7. ÖGD
8. Koronarangiographie
9. TEE
10. elektrische Kardioversion
11. Bronchoskopie
12. Arthroskopie
13. Hüftgelenk
14. Kreuzbandriss
15. Perkutane leberpunktion
16. Azitespunktion
17. CT mit Kontrastmittel
18. MRT mit Kontrastmittel
19. Leisenhernie nach Lichtstein
20. Hämorrhoidektomie

MOST IMPORTANT: This is 1/3 of your entire exam!

10min x 2 minutes

Arzt-Arzt Cases (30+ Total)

You will get **1 of these** in your exam:

Respiratory (3):

1. Pneumonie 1
2. Pneumonie 2
3. Bronchiale Asthma
4. COPD

Cardiovascular (3):

5. Vorhofflimmern (Atrial fibrillation)
6. NSTEMI
7. Hypertensive Krise

Gastrointestinal (6):

8. Komplizierte Appendizitis
9. Gastritis
10. Divertikulitis
11. Pankreatitis
12. Chronische Cholezystitis
13. Gastroblutung untere (Lower GI bleeding)

Trauma/Orthopedics (8):

14. Kreuzbandriss (ACL tear)
15. Rippenfraktur (Rib fracture)
16. Kopfplatzwunde (Head laceration)
17. Schlüsselbein Fraktur (Clavicle fracture)
18. Oberschenkelhalsfraktur (Femoral neck fracture)
19. Sprunggelenksfraktur (Ankle fracture)
20. Mittelhandfraktur (Metacarpal fracture)
21. Humerusfraktur (Humerus fracture)

Other Systems (8):

22. Anaphylaktischer Schock
23. BPLS (Benigne paroxysmale Lagerungsschwindel)
24. Diabetes mellitus
25. Leistenhernie (Inguinal hernia)
26. Pyelonephritis
27. Morbus Crohn
28. Polyarthritis (Rheumatoid arthritis)
29. Niereninsuffizienz (Renal insufficiency)

TIPS

Essential Communication Frameworks

SAMPLER (For Anamnesis)

S = Symptoms - "Was führt Sie zu uns?"

A = Allergies - "Haben Sie Allergien?"

M = Medications - "Welche Medikamente nehmen Sie?"

P = Past medical history - "Haben Sie Vorerkrankungen?"

L = Last meal - "Wann haben Sie zuletzt gegessen?"

E = Events - "Was ist passiert?"

R = Risk factors - "Rauchen Sie? Trinken Sie Alkohol?"

OPQRST (For Pain Assessment)

Onset - "Seit wann haben Sie die Schmerzen?"

Provocation - "Gibt es einen Auslöser?"

Quality - "Wie würden Sie die Schmerzen beschreiben?" (dumpf, stechend, drückend, brennend)

Radiation - "Strahlen die Schmerzen aus?"

Severity - "Auf einer Skala von 1-10?"

Time - "Sind die Schmerzen konstant oder intermittierend?"

SBAR (For Arzt-Arzt Communication)

S - Situation (30 sec)

"Guten Tag, Herr/Frau Chefarzt. Ich möchte Ihnen [Patient Name],

[age] Jahre alt, vorstellen. Der Patient wurde heute wegen

[chief complaint] aufgenommen."

B - Background (2 min)

- Anamnesis
- Vital signs
- Physical examination
- Past medical history

A - Assessment (2 min)

- Lab results
- Imaging findings
- Working diagnosis

R - Recommendation (2 min)

- Diagnostic plan
- Therapeutic plan
- Further management

TIPS

Exam Day Tips

Official FAMED Test Prep Website

Review key vocabulary (*don't cram*)

- *Prepare documents (ID, confirmation)*
- *Get 8 hours of sleep*
- *Set multiple alarms*

Morning Of

- *Eat a good breakfast*
- *Arrive 30 minutes early at Mainz center*
- *Bring water and snack*
- *Stay calm and confident*

During the Exam

- *Use 2.5 minutes reading time wisely*
- *Remember: 2 anamnese cases (not 1!)*
- *Remember: Brief is 20 minutes (not 10!)*
- *Arzt-Arzt is 1/3 of exam - be thorough!*
- *Watch the time*

After the Exam

- *Results in ~4 weeks*
- *Digital certificate if you pass*
- *Can retake anytime if needed*

CHECKLIST

Your Success Checklist

Week 1: Anamnese Basics

- ☐ Learn SAMPLER framework
- ☐ Learn OPQRST framework
- ☐ Practice all 13 anamnese cases
- ☐ Remember: TWO cases in exam!

Week 5: Brief (20 minutes!)

- ☐ Learn Arztbrief structure
- ☐ Master Konjunktiv I
- ☐ Practice all 10 cases
- ☐ Practice 20-minute time limit

Week 2: Aufklärung

- ☐ Practice all 19 procedures
- ☐ Master informed consent structure
- ☐ Learn procedure-specific vocabulary
- ☐ Practice timing (10 min)

Weeks 6-8: Integration & Mock Exams

- ☐ Complete 5 full mock exams
- ☐ Review all 76 cases
- ☐ Address weak areas
- ☐ Rest before exam day

Weeks 3-4: Arzt-Arzt (1/3 of exam!)

- ☐ Practice all 29+ cases
- ☐ Master SBAR structure
- ☐ Use passive voice consistently

This is MOST IMPORTANT!

TIPS

Top 10 Common Mistakes to Avoid

1. Using "Du" Instead of "Sie"

Wrong: "Hast du Schmerzen?"

Right: "Haben Sie Schmerzen?"

Always use formal "Sie" with patients and colleagues.

2. Forgetting to Introduce Yourself

Wrong: Starting directly with questions

Right: "Guten Tag, mein Name ist Dr. [Name]. Ich bin [your role]."

3. Using Medical Jargon with Patients

Wrong: "Sie haben eine Cholezystolithiasis."

Right: "Sie haben Gallensteine in der Gallenblase."

*Use **Laiensprache** (lay language) for patients, **Fachsprache** for doctors.*

4. Not Managing Time in Brief

Wrong: Spending 15 min on anamnesis, rushing diagnosis

Right: Structure your 20 minutes: 5 min anamnesis, 5 min findings, 5 min diagnosis/therapy, 5 min plan

5. Underestimating Arzt-Arzt (1/3 of Exam!)

Wrong: Practicing Arzt-Arzt same as other stations

Right: Spend DOUBLE the time on Arzt-Arzt - it's 1/3 of your grade!

Get the **FAMED** protocol
book and study easier with

Practice with us:

<https://famedtestprep.com>

TIPS

Top 10 Common Mistakes to Avoid

6. Forgetting Second Anamnesis Case

Wrong: Only preparing for one anamnesis

Right: Remember you get TWO 10-minute anamnesis cases!

7. Incomplete Risk Disclosure

Wrong: Only mentioning common risks

Right: Cover general risks AND procedure-specific risks

8. Disorganized SBAR Presentation

Wrong: Jumping between topics randomly

Right: Strict SBAR structure - Situation, Background, Assessment, Recommendation

9. Not Using Passive Voice in Brief

Wrong: "Wir haben die Patientin untersucht."

Right: "Die Patientin wurde untersucht."

10. Panicking When You Don't Know Something

Wrong: Making up information

Right: "Das müsste ich noch abklären."

CONCLUSIONS

Passing FAMED

Passing FAMED in 8 weeks requires:

1. Understanding the CORRECT structure (3 stations + Brief)
2. Practicing ALL 76 cases** (not just a few)
3. Focusing on Arzt-Arzt** (1/3 of exam!)
4. Mastering the 20-minute Brief** (not 10!)
5. Daily practice** (2-3 hours/day)

You can do this!

With this realistic 8-week plan covering all 76 official cases, **you'll be ready.**

Good luck with your FAMED preparation!
